

NOLTING®

LONGARM QUILTING MACHINES

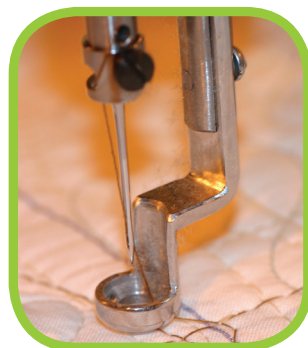

PRO SERIES

The Pro series commercial line machine has additional features that make your 24/7 quilting experience even easier.

- 20" and 24" throat depth, with 10" of inside height.
- 30" throat depth, with 12" of inside height.
- Adjustable front and rear handles, move from wide angle to microstitch.
- Rear handles for laser guided pantograph quilting.
- Intellistitch IS TURBO CL stitch regulator.
- Round hopping foot for using rulers and templates.
- Convenient front and rear hand wheels.
- Fluorescent light above the needle.
- Light weight machine body with walls constructed of strong solid aluminum.
- Complete systems include frame and accessories.
- Custom built individually by skilled craftsmen at the Nolting manufacturing facility in Hiawatha, Iowa.

IS TURBO CL Stitch Regulator

Round Foot For Ruler Guides

IS TURBO CL

Stitch regulator with needle down button (white) laser on/off (red) stitches per inch dial and speed dial. Controls on both front and back of the machine!

LOW MAINTENANCE

Only 1 drop of oil every 8 hours of continuous use. No oil reservoirs or complex places to access.

THREAD PATH

Obvious thread path and tension device help you achieve your desired stitch quality.

12" FLORESCENT LIGHT

Light the work area perfectly. Switch out and insert a black light when needed.

ADJUSTABLE HANDLES

Fully adjustable front and rear handles can be custom positioned to your individual needs.

HOPPING FOOT ASSEMBLY

Just right for rulers and guides.
